## 1. Golf Greens

### a. Puttinggreens not sand filled – nepískované umělé greeny

1. **Advanced PE:** A Polyethylen (PE) turf of 15 mm, monofilament, which can hold sand but does not require sand. It should be used as a putting green surface only, mostly for minigolf and non professional practicing.

The speed is approx. stimp 10 – 12

Rolls are 4.00 meter wide and 25 meter long.

**Full Rolls: € 33,75      928,- Kč/m2 bez DPH**

**Coupons: € 38,65      1.043,- Kč/m2 bez DPH**

2. **Advanced PA (Birdie, Eagle or Albatros):** A Nylon version of 15 mm, curled monofilament. Excellent for putting and short chipping surfaces.

Rolls are 4.00 meter wide and 25 meter long.

#### **PROFI green pro puttování a krátké chippování**

- Eagle DT (Duotone natural look)      = Stimp 8 - 9
- Birdie DT (Duotone natural look)      = Stimp 9 – 10
- Albatros DT (Duotone natural look)      = Stimp 11 - 12

**Full Rolls: € 37,50      1.030,- Kč/m2 bez DPH**

**Coupons: € 41,95      1.135,- Kč/m2 bez DPH**

**b. Approach greens / golf greens sand filled**

3. **Approach:** A Polyamide (PA) Nylon version of 30 mm, Monofilament yarn, which will require sand and an Airlastic shock absorption layer. Professional golf installation expertise is very important since the playing characteristics do not come from the carpet itself but from the installation techniques. The combination of fiber and sand will allow long approaches and putting. The speed can be varied during installation between stimp 8 and 10. Rolls are 4.00 meter wide and 25 meter long.
